Generate secure passwords for all your accounts

The screenshot shows the Amazon Sign in page in a Chrome browser window. The page has the Amazon logo at the top. Below it, there's a 'Sign in' section with fields for 'Email (phone for mobile accounts)' and 'Password', a 'Forgot your password?' link, a 'Sign in' button, and a 'Keep me signed in' checkbox. At the bottom of the sign-in section is a 'Create your Amazon account' button. A password generator overlay is open on the right side of the page. It shows a generated password 'x3knDvB#2yna3C7HR' with a strength indicator. Below the password, there are settings for 'Password length' (set to 12) and 'Easy to say/read' options. To the right of these are checkboxes for 'Uppercase', 'Lowercase', 'Numbers', and 'Symbols'. A 'FILL PASSWORD' button is at the bottom of the overlay. At the very bottom of the browser window, there are links for 'Conditions of use', 'Privacy Notice', and 'Help', along with a copyright notice: '© 1996-2017, Amazon.com, Inc. or its affiliates'.
